Lion Guard for Safety and Security Systems LLC

Introduction

Lion Guard LLC is a proudly Jordanian leader in intelligent safety, security, and automation solutions. Headquartered in Amman, we deliver advanced security infrastructure, smart systems, and tailored IT solutions to homes, businesses, institutions, and governmental bodies across Jordan and beyond. Our mission is to make life more secure, connected, and efficient through accessible and future-ready technology

Whether designing a surveillance system for a diplomatic compound, integrating access control at a banking headquarters, or installing smart home systems for private villas, we approach every project with the same values: excellence, integrity, and innovation. Today, Lion Guard stands at the forefront of Jordan's digital transformation in security and infrastructure, offering a unique blend of modern technology, local expertise, and global best practices. We are proud to play a role in shaping a safer, smarter future for our community—one solution at a time

Our work is rooted in a clear mission: to make life more secure, connected, and efficient through technology that is both accessible and future-ready. We serve clients of all scales—from individual homeowners seeking smarter living, to multinational organizations requiring enterprise-grade surveillance, access control, and smart building automation.

With deep technical knowledge, field experience, and a relentless commitment to quality, Lion Guard has built a strong reputation for delivering projects that are not only functional but also scalable, compliant, and user-friendly. Our team includes certified engineers, experienced project managers, and skilled technicians who work collaboratively to understand each client's unique needs and deliver bespoke solutions with precision and care. We continuously invest in emerging technologies such as AI-powered analytics, IoT integrations, and cloud-connected platforms, ensuring our clients benefit from the latest advancements in safety and automation

Discover Something New

Our Mission

To protect, connect, and automate the spaces that matter most to people and organizations—using the power of innovation, quality engineering, and unwavering client focus

Our Vision

To become Jordan's most trusted and comprehensive provider of smart technology and integrated security solutions—reaching every sector and household with advanced, accessible, and reliable systems

Our Values

- **Client Satisfaction** – We measure our success by the trust and satisfaction of our clients.
- **Transparency & Integrity** – Ethical conduct is embedded in our daily operations.
- **Excellence & Innovation** – We continuously pursue new technologies and best practices.
- **Team Empowerment** – We invest in people, providing training and growth opportunities.
- **Community Impact** – We believe in advancing technology that benefits lives and enhances national resilience.

We excel in providing a user-friendly environment where we offer only high-quality products and services with reasonable prices that cannot be found anywhere else

Our Approach
& Lifecycle Methodology

From Idea to Execution – Our 4-Stage Model

Every project we take on follows a robust framework to deliver complete, worry-free solutions:

Site Assessment

A detailed physical and digital review of the site, including risk mapping, device placement plans, and budget modelling

System Design & Engineering

We create customized system blueprints based on your space, usage goals, and integration needs

Implementation & Testing

Our certified engineers handle installation, system configuration, QA testing, and documentation

Training, Handover & Support

We train your team, provide manuals, and offer long-term support plans, including remote and on-site maintenance

Optional Lifecycle Services

- Preventive Maintenance Contracts
- SLA-based Technical Support
- Periodic Health & Performance Checks
- Expansion Planning & Future Upgrades

Each system is treated as a living ecosystem, designed to evolve with your business.

Our
Key Solution Areas

Closed Circuit Television (CCTV) Systems & Surveillance Systems

Surveillance is no longer optional—it's essential. Lion Guard designs and installs customized CCTV systems using the latest technology in visual monitoring, analytics, and digital storage

- **Our Services Include:** Site assessment and risk analysis, system design with coverage optimization, installation of IP & analog cameras, NVR/DVR configuration & setup, cloud storage and remote access, and integration with AI-based alerts and analytics.
- **Key Features & Technology:** Full-color night vision cameras, facial recognition systems, thermal imaging cameras, license plate recognition (LPR), and mobile surveillance units for temporary deployment.
- We work with top brands like Dahua, Hikvision, Uniview, and Tiandy, ensuring both reliability and flexibility.

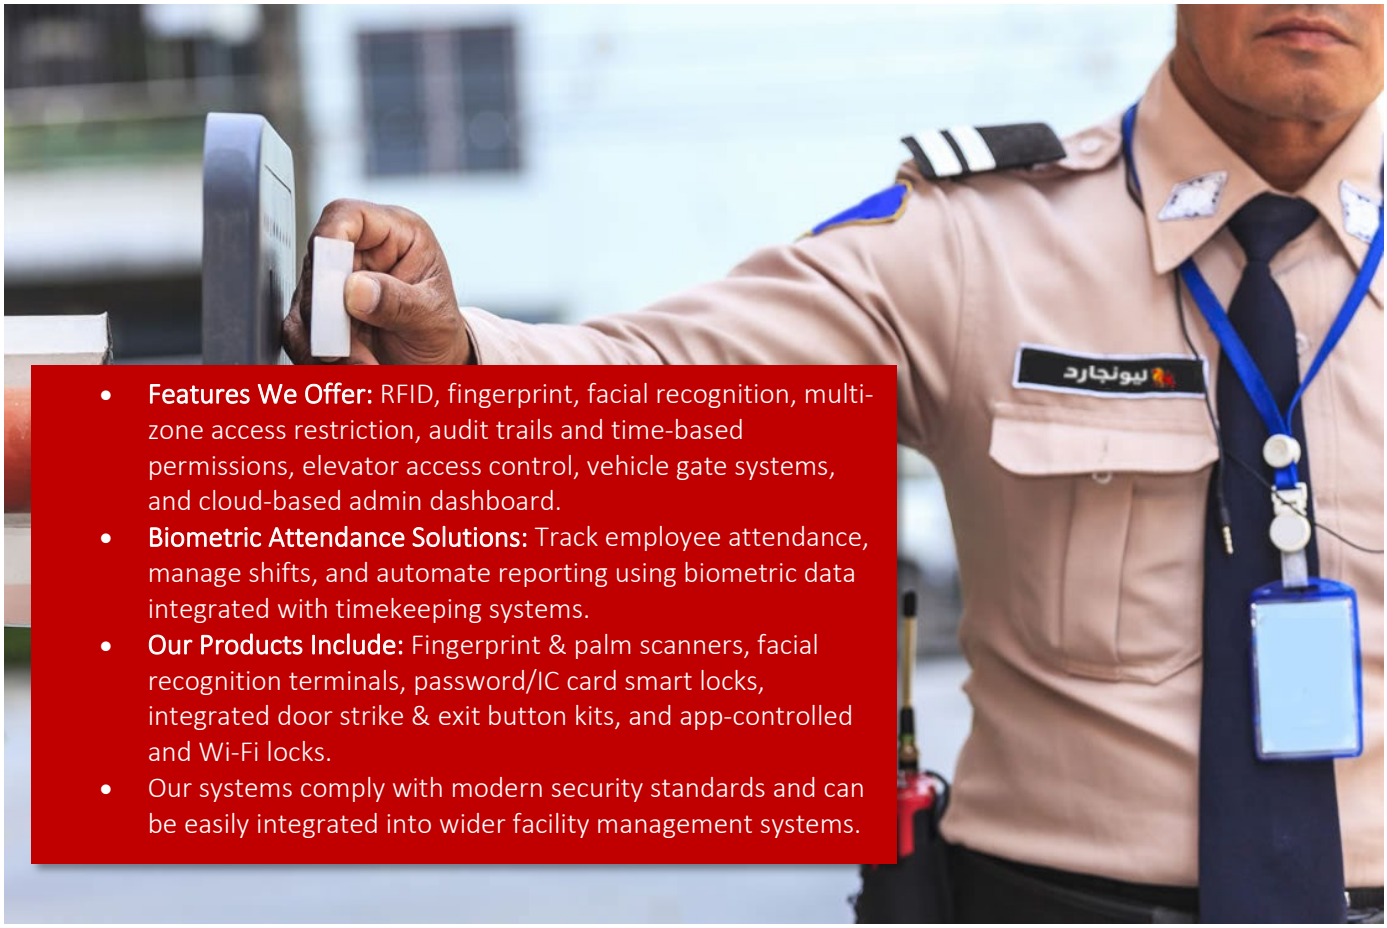

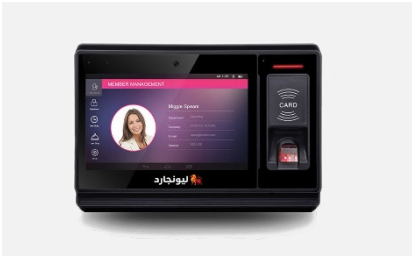

Our
Key Solution Areas

Access Control & Biometric Systems

From homes to high-security government sites, controlling who enters a property is essential. Lion Guard offers a wide portfolio of access solutions—from biometric authentication to card readers and smart locks.

- **Features We Offer:** RFID, fingerprint, facial recognition, multi-zone access restriction, audit trails and time-based permissions, elevator access control, vehicle gate systems, and cloud-based admin dashboard.
- **Biometric Attendance Solutions:** Track employee attendance, manage shifts, and automate reporting using biometric data integrated with timekeeping systems.
- **Our Products Include:** Fingerprint & palm scanners, facial recognition terminals, password/IC card smart locks, integrated door strike & exit button kits, and app-controlled and Wi-Fi locks.
- Our systems comply with modern security standards and can be easily integrated into wider facility management systems.

BIOMETRIC ATTENDANCE SYSTEMS

Get the perfect Time Attendance System in Jordan and all over the Middle East which includes RFID, Face Recognition, Fingerprint and Hand Punch.

AUTOMATIC GATES SYSTEMS

At Lion Guard we provide various Automatic Gate Solutions from leading suppliers with high quality installations and integration with access control systems.

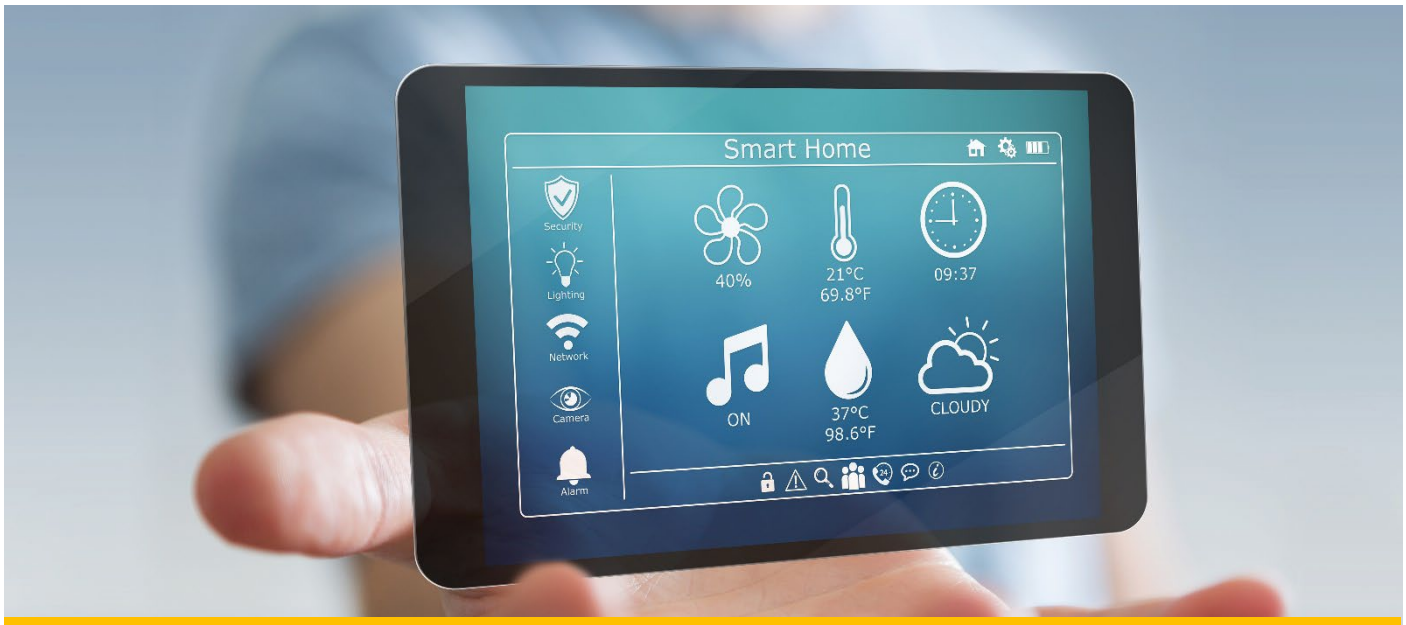

KEYLESS ENTRY DOOR LOCK

Keyless Entry Door Lock, Wi-Fi Smart RFID Lock, Touchscreen Keypad Door Lock, Biometric Fingerprint Electronic Lock, Battery Operated Passcode IC Card Digital Locks

Our
Key Solution Areas

Smart Homes & Building Automation

- **Automation Services Include:** Lighting and climate control systems, motorized blinds and shades, multimedia system integration, smart scheduling for energy efficiency, mobile app & voice control, and occupancy-based automation.
- **Smart Lighting Systems:** Energy-saving LED controls, color tuning and scene presets, motion sensors and daylight sensors, and scheduled events and remote overrides.

SMART HOMES – LIMITLESS CONTROL
Our smart home systems are built on platforms that support integration with Alexa, Google Home, and Apple HomeKit, ensuring you stay in control, wherever you are

WE PARTNER WITH THE BEST

We partner with leading brands like Sonoff and Homelux to ensure seamless functionality and future-proof installations

Our
Key Solution Areas

Fire & Intrusion Alarm Systems

Protecting Lives & Assets. Lion Guard implements advanced fire detection and burglar alarm systems compliant with national safety standards and international best practices.

- **Fire Alarm Capabilities:** Conventional and addressable fire alarm systems, smoke, heat, and gas leak detectors, centralized fire panels with remote monitoring, and integration with sprinklers and HVAC shutdown.
- **Brands we work with:** Notifier by Honeywell, Apollo, UniPOS , and Vimpex.
- **Burglar Alarm Systems:** Motion detectors (PIR), glass break sensors, door/window contacts, panic buttons and silent alarms, and app-based arming/disarming.
- We also implement intrusion systems that integrate with CCTV and access control to create a unified, multi-layered security strategy.

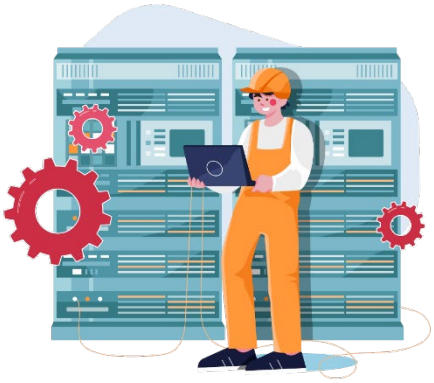

Our
Key Solution Areas

Network Infrastructure

The Digital Backbone of Every Operation. From SMEs to large institutions, reliable IT infrastructure is fundamental. At Lion Guard, we build high-performance wired and wireless systems tailored to each environment's scale, complexity, and business needs.

- **Our Capabilities Include:** Structured cabling (Cat6/Cat7, Fiber), data center setup and server rack design, LAN/WAN and VPN deployment, Wi-Fi mesh and wireless access points, internet load balancing & failover, cloud backup & remote monitoring, and firewall and endpoint security systems.
- **Technical Services:** Network diagnostics and audits, remote and on-site IT support, system migration & upgrade services, and preventive maintenance agreements.
- Whether you're launching a new office or upgrading legacy systems, Lion Guard ensures seamless connectivity and optimal uptime.

NETWORK INFRASTRUCTURE

SMART AI SOLUTIONS

Smart Integration

Leading with Innovation. We're not just keeping up with the future—we're building it. Lion Guard embraces cutting-edge technologies like Internet of Things (IoT), 5G, and Artificial Intelligence (AI) to deliver smart, scalable, and automated solutions for forward-thinking clients.

- **Examples of Smart Applications:** AI-based facial recognition in CCTV, LoRaWAN sensors for agricultural monitoring, smart energy systems linked to usage analytics, predictive maintenance alerts for critical systems, and environmental sensors for air quality, smoke, CO2.
- **Tech Stack Supported:** Protocols (LoRaWAN, Zigbee, NB-IoT), Platforms (Tuya, Home Assistant, proprietary dashboards), and Devices (Smart relays, occupancy sensors, IP controllers).
- By combining physical security with real-time data and automation, we help our clients transition to intelligent environments that are efficient, secure, and responsive.

Industries we Serve

We have Jordan Covered

Lion Guard’s portfolio spans a wide array of industries. Our solutions are customized not only to meet technical requirements, but also regulatory, operational, and user experience needs

Sector	Our Value Proposition
Banking & Finance	Secure, compliant surveillance and access control for high-risk areas.
Government	Mission-critical command centers and protected perimeters.
Education	Campus-wide surveillance, smart class access, and attendance tracking.
Retail & Hospitality	Integrated systems for customer safety, POS surveillance, and staff tracking.
Industrial & Manufacturing	Facility access, fire suppression integration, and perimeter monitoring.
Agriculture & Remote	IoT sensors for environment tracking and solar-powered surveillance.
Healthcare	Secure facility access, cleanroom-grade smart automation, and fire systems.
Residences & Villas	Smart home features with CCTV, automation, gate control, and more.

Our **Brands**

We work only with manufacturers and brands that deliver proven, scalable, and certified solutions. These relationships ensure quality, availability, and consistent innovation.

- **CCTV & Surveillance**: Dahua Technology, Hikvision, Uniview , Tiandy
- **Fire Detection & Safety**: Notifier by Honeywell, Apollo, UniPOS , VIMPEX
- **Smart Home & Automation**: Sonoff , Homelux , A Part Sound
- **Access Control & Intrusion Systems**: Texecom, Ahlra, Atlas, Beninca, Western Digital (Storage)

Our supply chain ensures rapid delivery, genuine warranties, and full technical compatibility.

Our **Clients**

BLOM BANK SAL

In addition to many Individuals, Private Farms, Coffeeshops and SMBs

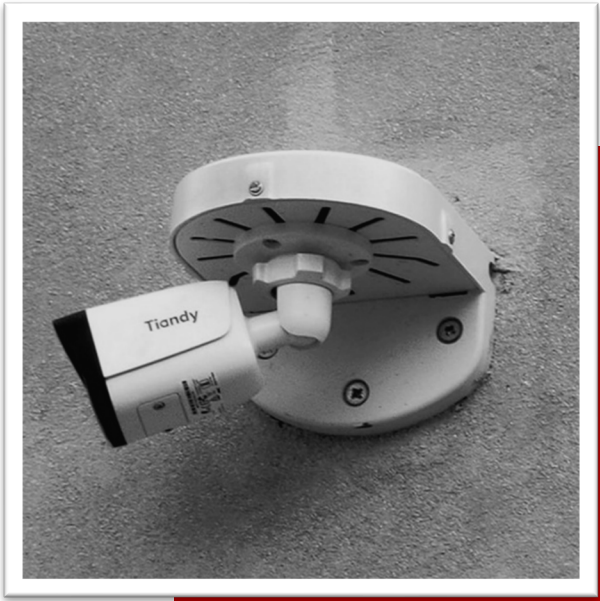

* Through our Employees

Case
Study 1

- **Challenge:** The IOM required a highly secure, centralized surveillance system across their headquarters in Amman to improve operational oversight and ensure staff and asset protection.
- **Solution:** Lion Guard installed a full-scale IP-based CCTV system integrated with a centralized control room. Features included night-vision HD cameras, motion alerts, and remote admin dashboards.
- **Result:** Live monitoring capability was enabled across departments with high storage redundancy and 24/7 operational uptime. The system integrated seamlessly with future IoT expansion plans.

IOM
UN MIGRATION

IP-based CCTV system

Client

International Organization for Migration (IOM) – Amman HQ

Case
Study 2

- **Challenge:** UNRWA schools across Jordan required scalable and standardized surveillance systems to enhance student safety, protect educational assets, and deter external threats.
- **Solution:** Lion Guard implemented custom-designed CCTV surveillance systems across multiple UNRWA school locations. Each school received a secure, tamper-proof system with weather-resistant outdoor cameras, HD indoor cameras, and central NVR recording solutions.
- **Result:** UNRWA now has a robust, site-specific surveillance network with centralized access and alert systems. The installations support the organization's protection and child safety initiatives and were delivered on time despite tight deadlines.

CCTV system

Client

United Nations Relief and Works Agency (UNRWA) – School Network Deployment

Case
Study 3

- **Challenge:** Security for a diplomatic residence required a silent, efficient intrusion detection system that ensured diplomatic privacy while maintaining full coverage.
- **Solution:** Lion Guard installed a custom-designed intrusion alarm system with multi-zone PIR detectors, panic buttons, and covert signal transmission.
- **Result:** Enhanced perimeter protection, with real-time alerts to security staff and silent breach detection. The system continues to operate with minimal false alarms and 100% uptime.

Intrusion Alarm System

Client

Ukrainian Embassy

Case
Study 4

- Challenge: BLOM Bank needed to upgrade its branch-level security at two strategic locations—Swiefieh and Zarqa—by implementing responsive intrusion detection and emergency alarm systems that complied with banking sector standards and Central Bank regulations.
- Solution: In 2025, Lion Guard designed and installed a comprehensive intrusion alarm and panic button system tailored to the operational dynamics of each branch. Our team deployed advanced motion detectors, tamper-resistant control panels, reinforced access sensors, and discreet panic switches positioned for immediate response during emergencies. All components were networked through a secure communication backbone, with real-time monitoring linked to the bank's central security desk.
- Result: The Swiefieh and Zarqa branches now operate with heightened security confidence. The system ensures rapid incident detection and silent alerts, safeguarding both personnel and assets. The project was delivered on time, with minimal disruption to daily banking activities, and in full compliance with financial industry security protocols.

Featured Projects & **Installations**

Project Spotlight: Agricultural Security Deployment

- **Client:** Private farm, Al-Ghour – Shuneh region
- **Scope:** 3 sites, each with 7–9 color night-vision Dahua IP cameras, 3x 8-channel NVRs, Centralized UPS + secure 19” racks.
- **Timeframe:** Completed in 48 hours with a 4-person technical team.
- **Outcome:** Seamless remote monitoring across all farms, including smartphone access and automated alerts. Client awarded 5-star feedback for performance and speed.

HIGH RESOLUTION CCTV SYSTEM

Farm 1:

- 4 Number 4MP high resolution Dahua IP Cameras Colour Night Vision
- 8 Input NVR
- UPS & 19-inch Rack

Farm 2:

- 7 Number 4MP high resolution Dahua IP Cameras Colour Night Vision
- 8 Input NVR
- UPS & 19-inch Rack

Farm 3:

- 7 Number 4MP high resolution Dahua IP Cameras Colour Night Vision
- 8 Input NVR
- UPS & 19-inch Rack

CCTV PROJECT

Client
Private Client

Location
Al-Ghour – Shuneh region

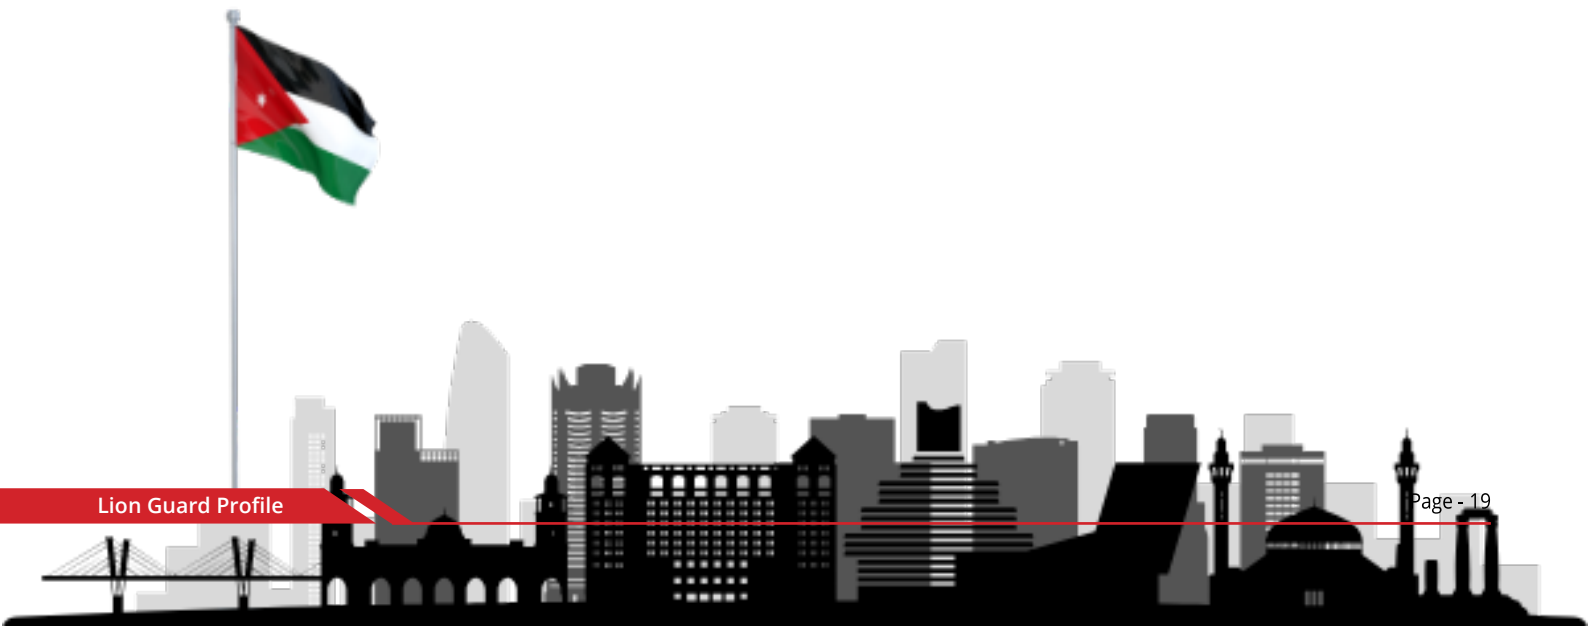

The entire work took less than two working days, the team consisted of 3 experienced technicians and one Engineer

We got five Star Review from the Customer

Other Key **Installations**

- TRUSTY Group HQ – Amman
- LEADERS Center – Security & IoT Sensors
- Private villas in Abdoun, Dabouq, and Airport Road
- Jordan University Hospital
- Embassy of Ukraine
- Laith Al-Obaidi Cars
- Lebanese House Food
- Residence of the Kuwaiti Ambassador
- International Organization for Migration (IOM) – Telaa Al Ali Main Building
- Amman Training Centre (ATC)
- Millennium Agricultural Investments
- Um Khalil Restaurant
- King Hussein Medical City
- Irshaidat Water Treatment (IWT) Group Headquarters – Amman
- Catalania Restaurant – Amman
- Villa of Dr. Ayman Abu Awad
- UNRWA SCHOOLS
- Huwwarah – Irbid Private Villa

Lion Guard executes all projects with licensed engineers and trained technicians, ensuring compliance with national and municipal safety codes.

THE SECRET OF OUR STORY IS TO KNOW THE NEEDS OF OUR CLIENTS AND SERVE THEM

Our **Certifications**

- **Registered with Jordan Chamber of Commerce**
- **Licensed by Jordan Civil Defense for fire and alarm systems –**
  Ensuring compliance with national safety standards for fire and alarm system installations.
- **Conformity with ISO 22301 (Business Continuity) –**
  Demonstrates our commitment to maintaining operations and delivering services even in disruptive circumstances.
- **Staff trained in OSHA safety and IEC fire system design –**
  Ensuring our projects meet stringent international safety and design standards.
